

## Features & Benefits

- ✘ Manufactured in the UK
- ✘ Easy to install
- ✘ Suitable for gigabit Ethernet applications
- ✘ High Density 24 Port
- ✘ Rear Cover to protect termination and improve shielding

## Ordering Information

Product Description	Part Number
2020 Series FTP 24 way FTP Panel	009-002-001-01

## Specification

<b>Width</b>	19" (483mm)
<b>Depth</b>	98mm
<b>Height</b>	1u (44mm)
<b>Material</b>	Mild Steel Sheet CR4 to BSEN 10130-1999 DC01
<b>Finish</b>	Matt Black Polyester Paint
<b>Socket Labels</b>	Write-on Silk Screen on Panel Front
<b>Cable Management</b>	Improved cabling facility with easy to use cable tie positions for left and right cable entry
<b>IDC Labling</b>	Colour Coded to EIA 258A/568B
<b>IDC Blocks</b>	Industry Standard 4 way IDC's
<b>Conforms to</b>	TIA/EIA-568-B Enhanced Category 5 specification

The Connectix 2020 series FTP panel is an alternative to our standard Enhanced Category 5 FTP Patch Panel.

It offers the same Enhanced Net 5 performance as our standard FTP panel but has been designed to present the cable termination IDC's horizontally on a tray at the rear of the panel, making termination and cable management easier.

Enhanced Category 5 panels provide exceptional performance for high speed LAN's including gigabit Ethernet applications in an easy to use format.

All sockets in the panel are commonly linked through the panel and can be grounded to the rack using the earth wire provided.

When combined with Enhanced Category 5 FTP modules and cable, the link will perform well in excess of the enhanced category 5 specifications.
