

# LJ6C Metal Face Plates

## Features & Benefits

- ✕ Available in a wide range of finishes
- ✕ Designed to fit the Net 5 Enhanced LJ6C Module
- ✕ Available in 7 different finishes
- ✕ Single and Dual gang faceplates are available
- ✕ Also available unloaded

Our range of metal faceplates are ideal for installing into situations where matching the surrounding décor is important. This may mean that the Standard white ABS face plates are unsuitable. These faceplates have been designed specifically for the Enhanced Net 5 Compact LJ6C module, they fit perfectly onto flush wall mount back boxes.

The face plates are available in a wide selection of finishes and all come in single, dual and 4 way variations and are available from stock. The different finishes are; Georgian Rope Edge Brass, Victorian Polished Brass, Graphite, Brushed Steel, Mirror Chrome, Satin Chrome and Iridium Black.

### Finishes
