### Ordering Information

Product Description	Part Number
Dual LJ6C to Euro Faceplate Adaptor	008-009-005-00

Connectix Euro Faceplate Adaptor has been designed to allow 2 Connectix LJ6C modules to be mounted in a single gang Euro Style faceplate.

This is the ideal solution to situations where specific faceplates are required to match switches and power outlets. Two adaptors maybe used to house 4 LJ6C modules in a dual gang Euro plate. The Euro Faceplate Adaptor is compatible with Connectix Cabling System Cat 5E and Cat 6 LJ6C modules.
