The Optix range of Patchcords, Pigtailed and Pre-Terminated assemblies are manufactured in house and surpass the high standards required for datacomms and CATV applications.

Our termination facility is one of the largest in the UK, providing a high volume, fast turnaround service for all types of multimode and singlemode terminations. We supply singlemode terminations with all polish finishes including SPC, UPC and APC variants.

Our range includes ST, SMA, SC, LC, FC, SC Duplex, FDDI and ESCON assemblies. All terminations are manufactured to the highest industry specifications and are 100% tested, certified and fully traceable through our quality system.

We are committed to holding extensive stock of many assembly types, in all common lengths. This allows us to provide a same day despatch service on most small/medium volume orders.
