## Power Distribution Units

A full range of Power Distribution Units are available in various formats containing 13 sockets. Horizontal units are standard 19" format to fit between the uprights. Vertical units are usually placed at the back of the cabinet. Each PDU is supplied with a two metre mains cable.

## Ordering Information

Product Description	Part Number
Roof Mounting 2 way fan unit	009-000-005-13
Roof Mounting 4 way fan unit	009-000-005-14
Roof Mounting 2 way Server fan unit	009-000-128-10
Roof Mounting 4 way Server fan unit	009-000-128-05

## Roof Mounting Fan Units

Roof Mounting Fan Units are available in 2 or 4 unit variations. Situated in the top of the cabinet, they ensure a good flow of air through the cabinet, and thus reduce the overheating problems with the internal equipment.
