White PVC Dual Gang Back Box 32mm (MSSB216)	012-007-002-321

Marshall Tufflex back boxes are manufactured from moulded PVC-U. They are available in single and dual gang with a choice of surface mounted and flush mounted dry lined wall versions.

The surface mount boxes feature knock outs for mini trunking adaptors and are available in standard single gang (87 x 87mm) and dual gang (87 x 147mm) sizes; with external depths of 25mm (23mm internal) and 32mm (30mm internal).

The dry lined wall boxes are also available in single or dual gang with both versions having a depth of 34mm. They are suitable for mounting in board with a thickness of between 6 – 14mm and can easily cope with irregular shaped aperture sizes. Swivelling snap out clamps will grip any standard thickness of building board tightly.
